! COMPANY INTRODUCTION

Garis, founded in 2001, is a leading manufacturer of functional home hardware, offering diverse solutions for creative living spaces. As a top player in China's hardware industry, its products are sold in 72 countries, serving global custom home and cabinet manufacturers with high-quality solutions.

Garis, recognized as a national high-tech enterprise, upholds the corporate philosophy of "exploring the essence of things to acquire knowledge and pioneering innovation." Guided by the high-end market, the company is committed to independent innovation and research and development. With over 150 R&D experts and 1,500 employees, it operates three production bases (200,000 sqm total), a research center, and holds 100+ patents. Certified by ISO9001 and ISO14001, Garis uses smart production and digital management.

Garis provides end-to-end services from design to delivery, ensuring flexible, high-standard production to meet global clients' diverse and time-sensitive needs.

# ! PRODUCTION BASE

GARIS products thrive globally, driving production expansion. Since 2013, GARIS built facilities in Heyuan, Guangdong Province—Garis Lianping Industrial Park and Garis High-Tech Zone—totaling 200,000 sqm. Surrounded by nature environment, the zones exemplify "green production" and a "garden-style industrial park," with efficient transportation networks.

With over 20 years of growth, GARIS boasts a robust production system, featuring cutting-edge international equipment and advanced automated robotic lines. The company employs 150+ R&D experts and 1,500+ staff, using smart production and digital platforms across all stages—from raw material cutting to stamping, molding, injection molding, spraying, assembly, quality inspection, and product shipment.

Every step, from design to quality and performance, is meticulously managed, reducing energy use while boosting production output.

Development  
course

2001

GARIS was established, primarily producing home plastic and hardware accessories, with a factory area of 500 square meters.

2005

GARIS's soft-closing drawer system is sold in 36 countries worldwide and has established strategic partnerships with renowned global cabinet manufacturers and hardware traders.

2007

The second-generation concealed soft-closing drawer system quickly dominated the market. The company expanded production into a 20,000㎡ facility, employed 300 staff, and achieved an annual output exceeding 100 million yuan.

2002

The company built a comprehensive domestic sales network and expanded into overseas markets, leading to rapid growth. The production area increased to 1,500 square meters.

2004

GARIS pioneered the domestic soft-closing drawer system and debuted at the Guangzhou International Hardware and Accessories Exhibition, quickly gaining widespread attention and acclaim from customers worldwide. This success laid a solid foundation for GARIS's future growth.

2006

Major modifications have been implemented for the soft-closing drawer system, alongside ongoing enhancements to refine the product's features and structural design.

2008

Venturing into the basket slide market and swiftly rising to prominence as a leading domestic basket manufacturer and top supplier for cabinet accessories, consistently securing a market share exceeding 80%.

2009

Garis Office Building was completed, equipped with A new R&D center and laboratory center, which were built to develop higher quality products and provide better services for global users.

2011

The new generation IN-BOX versatile drawer has been innovatively launched. A breakthrough in soft-closing slide technology has been achieved, developing its rails with a load-bearing capacity of 45KG/70KG.

2015

The Garis construction area of the Lianping factory in Heyuan City, is 60,000 square meters. Two fully automatic spraying production lines have been introduced, significantly doubling the production capacity of drawers.

2013

The ultra-thin, brand-new MINI-BOX optimized slim soft-closing drawer series has been successfully launched, alongside the release of a newly designed storage system.

2019

The G2 and G6 concealed slides, along with the METAL-BOX ultra-thin drawers, have been simultaneously launched, providing enhanced options for diverse home space solutions.

2017

soft-closing technology has achieved a major breakthrough. The innovative stepless variable soft-closing technology enables smoother sliding and softer closing.

2025

The all-new N Series and R Series soft-closing drawers have made a powerful debut, collaborating to revolutionize the drawer divider storage solutions and ushering in a new era for the high-end custom home hardware industry.

2022

The construction of the new facility in Garis Heyuan High-Tech Zone has commenced, with a total construction area of 100,000 square meters. The factory's production space has been expanded to 200,000 square meters, providing greater capacity for Garis's future development.

2021

The 13MM ultra-slim borderless U-BOX soft-closing drawer series, seamlessly aligned with modern aesthetic design, debuts innovatively. With a groundbreaking breakthrough in concealed slide performance and synchronization, it ensures precise and smooth sliding, offering versatile solutions for diverse home spaces.

PRODUCT SERIES ▶

Rofi

Rofi Low drawer Storage system P011-030

Make full use of the low drawer space in the kitchen to ensure that tableware is arranged neatly, seasoning bottles are stable and independent, small tools are separated and stored, and kitchen supplies are placed in an orderly manner. At the same time, other kitchen items also have their own ownership, significantly improving the cleanliness and daily operational efficiency of the kitchen.

The high suction system provides a dedicated storage location for large kitchen utensils and achieves refined management of kitchen supplies through its high flexibility and reasonable planning of internal space.

Mina

Mina Storage system P031-060

With its highly modular and flexible modular design, a revolutionary kitchen storage solution has been ingeniously constructed.

This system not only easily accommodates a variety of cutlery, seasoning bottles and jars, as well as other kitchen supplies, but also meets different kitchen space and personalized storage needs with its unparalleled flexibility and scalability.

Proof

Proof Sink Protect P061-068

The drain pan, as a practical kitchen accessory, was originally designed to solve the problem of possible dripping at the bottom of the sink. By effectively catching these drops of water, it prevents them from penetrating into the interior of the cabinet below the sink, causing the cabinet wood to become damp, expand, deform, and even mold and rot.

Tifful

Tifful TPE Anti-Slip Mat P069-080

Effectively prevent tableware from sliding, reduce kitchen noise, and create a peaceful cooking environment. And its unique texture showcases a fashionable beauty, bringing new vitality to the kitchen space.

Whether it's cutting to fit various cabinet sizes or providing personalized customization services, it can perfectly blend into your home style. We use environmentally friendly and healthy food grade materials that are non-toxic and harmless, protecting the health and safety of you and your family.

## Modular Combination

The divider maximizes the use of space in low kitchen drawers: utensils can be neatly arranged, spice bottles can stand independently and securely, small tools can be compartmentalized, kitchenware can be organized orderly, and other kitchen miscellaneous items can also be properly placed, significantly enhancing kitchen tidiness and operational efficiency.

It can be called the master of kitchen organization art. Whether it's delicate tableware, various spice bottles, or all kinds of small kitchen gadgets, each can find its exclusive spot in this compact space.

- large woven texture

Anti-slip mats with a large woven texture are typically crafted from soft, skin-friendly materials like TPE (Thermoplastic Elastomer). This ensures both reliable anti-slip performance and a comfortable tactile experience.

- Customization and Cut-to-Fit Design

Easily trim the mat to your desired dimensions. We also offer customization services to ensure the tableware protector seamlessly integrates into your home decor.

- Superior Anti-Slip Performance

Featuring advanced anti-slip textures, these mats keep tableware securely in place even during rapid drawer movements. This prevents clattering noises caused by shifting items, creating a quieter kitchen environment.

- Eco-Friendly Food-Grade Material

Made from certified food-grade eco-friendly materials, our mats are non-toxic and safe for daily use. Embrace sustainable living while safeguarding your family's health, ensuring purity and safety in every moment.

- **Fine Woven Texture**  
Compatible with modern minimalist, contemporary, or Chinese-style interiors, this delicate woven texture not only provides anti-slip functionality but also enhances home decor aesthetics, seamlessly blending into diverse design themes.
- **Customization and Cut-to-Fit Design**  
Tailor the size to meet your specific needs. Our customization service ensures the dishware protector integrates perfectly into your living space, offering flexible adaptation.
- **Superior Anti-Slip Performance**  
Engineered with advanced anti-slip textures, it maintains utensil stability even during rapid drawer movements, preventing collisions, displacement, and noise for a tranquil kitchen environment.
- **Eco-Friendly Food-Grade Material**  
Crafted from certified non-toxic, food-safe materials, it prioritizes health and sustainability. Embrace eco-conscious living while safeguarding your family's well-being, ensuring purity in every culinary moment.

- Classic Beaded Texture Design

The surface features a concave-convex texture reminiscent of beaded patterns. This design not only enhances the anti-slip mat's visual appeal but also creates a dimensional tactility to the touch. Overall, it delivers a sophisticated, timeless aesthetic.

- Customization and Cut-to-Fit Design

Tailor the size to meet your specific needs. Our customization service ensures the dishware protector integrates perfectly into your living space, offering flexible adaptation.

- Superior Anti-Slip Performance

Engineered with advanced anti-slip textures, it maintains utensil stability even during rapid drawer movements, preventing collisions, displacement, and noise for a tranquil kitchen environment.

- Eco-Friendly Food-Grade Material

Crafted from certified non-toxic, food-safe materials, it prioritizes health and sustainability. Embrace eco-conscious living while safeguarding your family's well-being, ensuring purity in every culinary moment.
