Utility Model

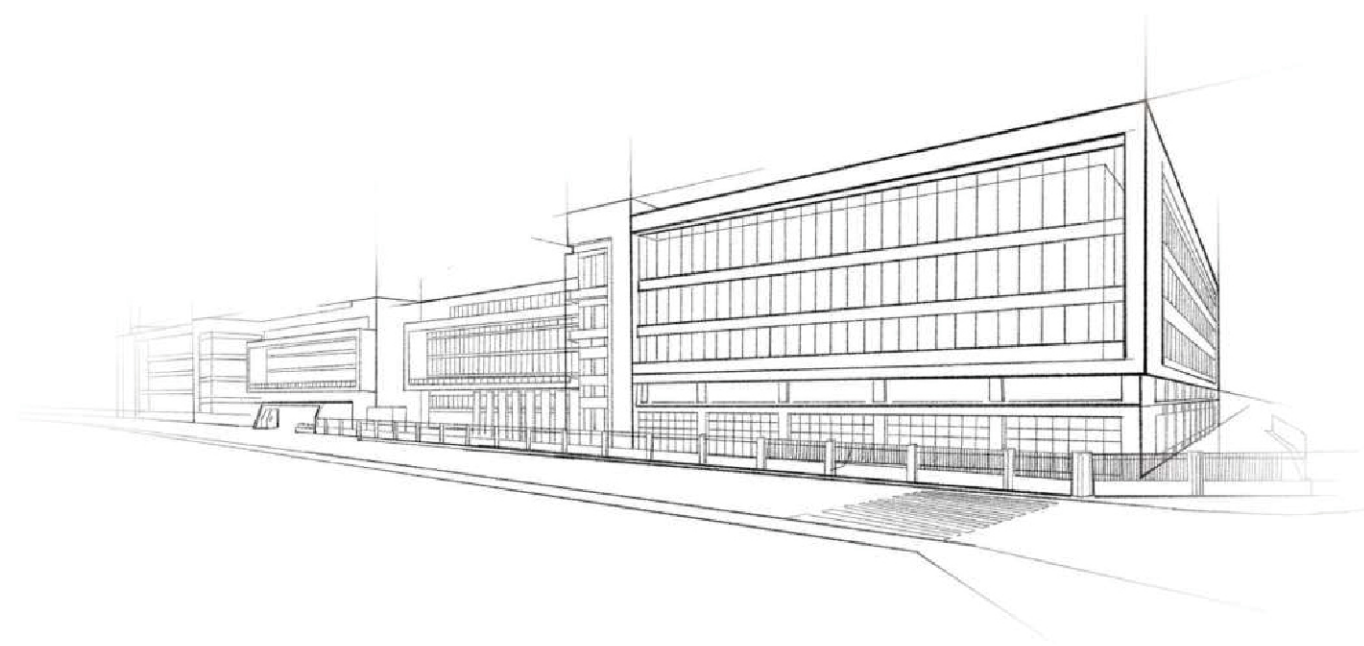

Garis, founded in 2001, is a leading manufacturer of functional home hardware, offering diverse solutions for creative living spaces. As a top player in China's hardware industry, its products are sold in 72 countries, serving global custom home and cabinet manufacturers with high-quality solutions.

Garis, recognized as a national high-tech enterprise, upholds the corporate philosophy of "exploring the essence of things to acquire knowledge and pioneering innovation." Guided by the high-end market, the company is committed to independent innovation and research and development. With over 150 R&D experts and 1,500 employees, it operates three production bases (200,000 sqm total), a research center, and holds 100+ patents. Certified by ISO9001 and ISO14001, Garis uses smart production and digital management.

Garis provides end-to-end services from design to delivery, ensuring flexible, high-standard production to meet global clients' diverse and time-sensitive needs.

! PRODUCTION BASE

GARIS products thrive globally, driving production expansion. Since 2013, GARIS built facilities in Heyuan, Guangdong Province—Garis Lianping Industrial Park and Garis High-Tech Zone—totaling 200,000 sqm. Surrounded by nature environment, the zones exemplify "green production" and a "garden-style industrial park," with efficient transportation networks.

With over 20 years of growth, GARIS boasts a robust production system, featuring cutting-edge international equipment and advanced automated robotic lines. The company employs 150+ R&D experts and 1,500+ staff, using smart production and digital platforms across all stages—from raw material cutting to stamping, molding, injection molding, spraying, assembly, quality inspection, and product shipment.

Every step, from design to quality and performance, is meticulously managed, reducing energy use while boosting production output.

Development
course

2001

GARIS was established, primarily producing home plastic and hardware accessories, with a factory area of 500 square meters.

2005

GARIS's soft-closing drawer system is sold in 36 countries worldwide and has established strategic partnerships with renowned global cabinet manufacturers and hardware traders.

2007

The second-generation concealed soft-closing drawer system quickly dominated the market. The company expanded production into a 20,000㎡ facility, employed 300 staff, and achieved an annual output exceeding 100 million yuan.

2002

The company built a comprehensive domestic sales network and expanded into overseas markets, leading to rapid growth. The production area increased to 1,500 square meters.

2004

GARIS pioneered the domestic soft-closing drawer system and debuted at the Guangzhou International Hardware and Accessories Exhibition, quickly gaining widespread attention and acclaim from customers worldwide. This success laid a solid foundation for GARIS's future growth.

2006

Major modifications have been implemented for the soft-closing drawer system, alongside ongoing enhancements to refine the product's features and structural design.

2008

Venturing into the basket slide market and swiftly rising to prominence as a leading domestic basket manufacturer and top supplier for cabinet accessories, consistently securing a market share exceeding 80%.

2009

Garis Office Building was completed, equipped with A new R&D center and laboratory center, which were built to develop higher quality products and provide better services for global users.

2011

The new generation IN-BOX versatile drawer has been innovatively launched. A breakthrough in soft-closing slide technology has been achieved, developing its rails with a load-bearing capacity of 45KG/70KG.

2015

The Garis construction area of the Lianping factory in Heyuan City, is 60,000 square meters. Two fully automatic spraying production lines have been introduced, significantly doubling the production capacity of drawers.

2013

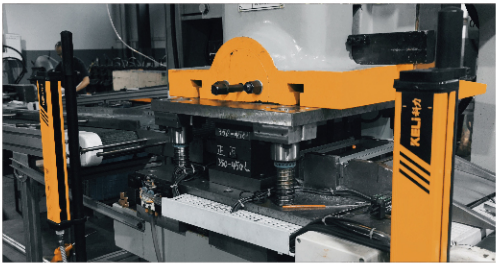

The ultra-thin, brand-new MINI-BOX optimized slim soft-closing drawer series has been successfully launched, alongside the release of a newly designed storage system.

2019

The G2 and G6 concealed slides, along with the METAL-BOX ultra-thin drawers, have been simultaneously launched, providing enhanced options for diverse home space solutions.

2017

soft-closing technology has achieved a major breakthrough. The innovative stepless variable soft-closing technology enables smoother sliding and softer closing.

2025

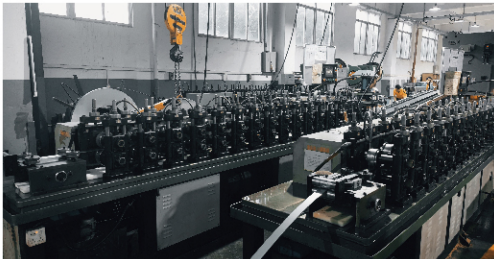

The all-new N Series and R Series soft-closing drawers have made a powerful debut, collaborating to revolutionize the drawer divider storage solutions and ushering in a new era for the high-end custom home hardware industry.

2022

The construction of the new facility in Garis Heyuan High-Tech Zone has commenced, with a total construction area of 100,000 square meters. The factory's production space has been expanded to 200,000 square meters, providing greater capacity for Garis's future development.

2021

The 13MM ultra-slim borderless U-BOX soft-closing drawer series, seamlessly aligned with modern aesthetic design, debuts innovatively. With a groundbreaking breakthrough in concealed slide performance and synchronization, it ensures precise and smooth sliding, offering versatile solutions for diverse home spaces.

Natural Aesthetics

Like the flowing grain of forest timber, we channel nature's essence into modern living spaces – whether through the grounded serenity of dark walnut or the crisp vitality of light oak. Customizable wood patterns seamlessly merge with the opulent textures of haute couture interiors, embodying an ultimate philosophy where "aesthetics are concealed in design, yet revealed through taste."

Ultra-thin and Exquisite

9mm ultra-thin design (30% thinner than traditional models) eliminates visual clutter while unlocking more spatial possibilities. The metallic luster and delicate texture infuse high-end custom spaces with a futuristic and minimalist aesthetic, embodying the design philosophy of "less is more".

Lightness and Transparency

Transcending spatial boundaries to liberate visual continuity. Whether in kitchen storage systems or walk-in closet cabinetry, the transparent approach imbues spaces with breathable vitality and organic fluidity, illuminating high-end custom spaces interiors through the poetic essence of transparency.

They together embody an ultimate aesthetic of "truth in design, excellence in taste," allowing home spaces to reveal unique charm and sophistication through meticulous details.

The ultra-thin design and unique luster, combined with the exquisite texture, inject an avant-garde futuristic style and minimalist modern home charm into the high-end space.

Innovative Architecture · Scalable Platform

With cutting-edge platform architecture design, we focus on crafting new experiences in personalized home customization. Tailored to each client's unique needs and interior style, we offer diverse design options, empowering you to freely select materials such as wood, glass, metal, and more for custom side panels. Whether embracing modern minimalism, classic luxury, or eclectic fusion, our designs integrate flawlessly into any aesthetic, adding distinctive charm to your living space.

NS9 Side Panels Customizable in Diverse PET Laminates Textures

N9 9mm Ultra-Thin Minimalist Design (30% Thinner Than Traditional Models)

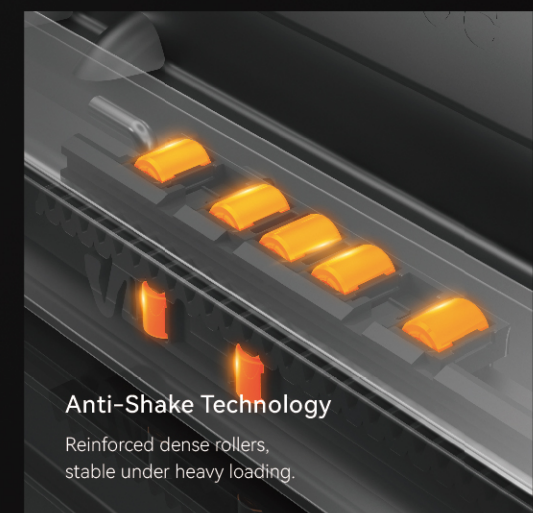

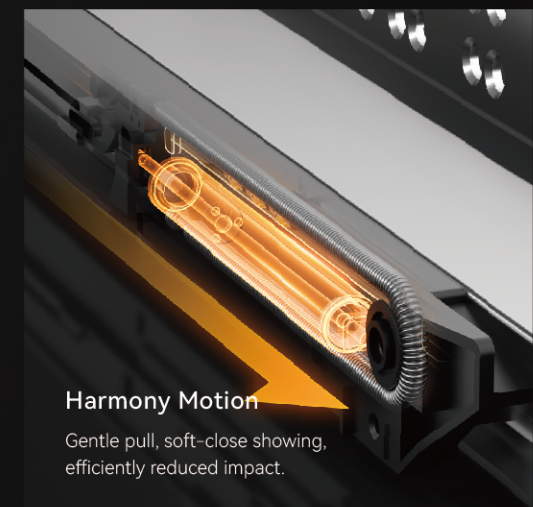

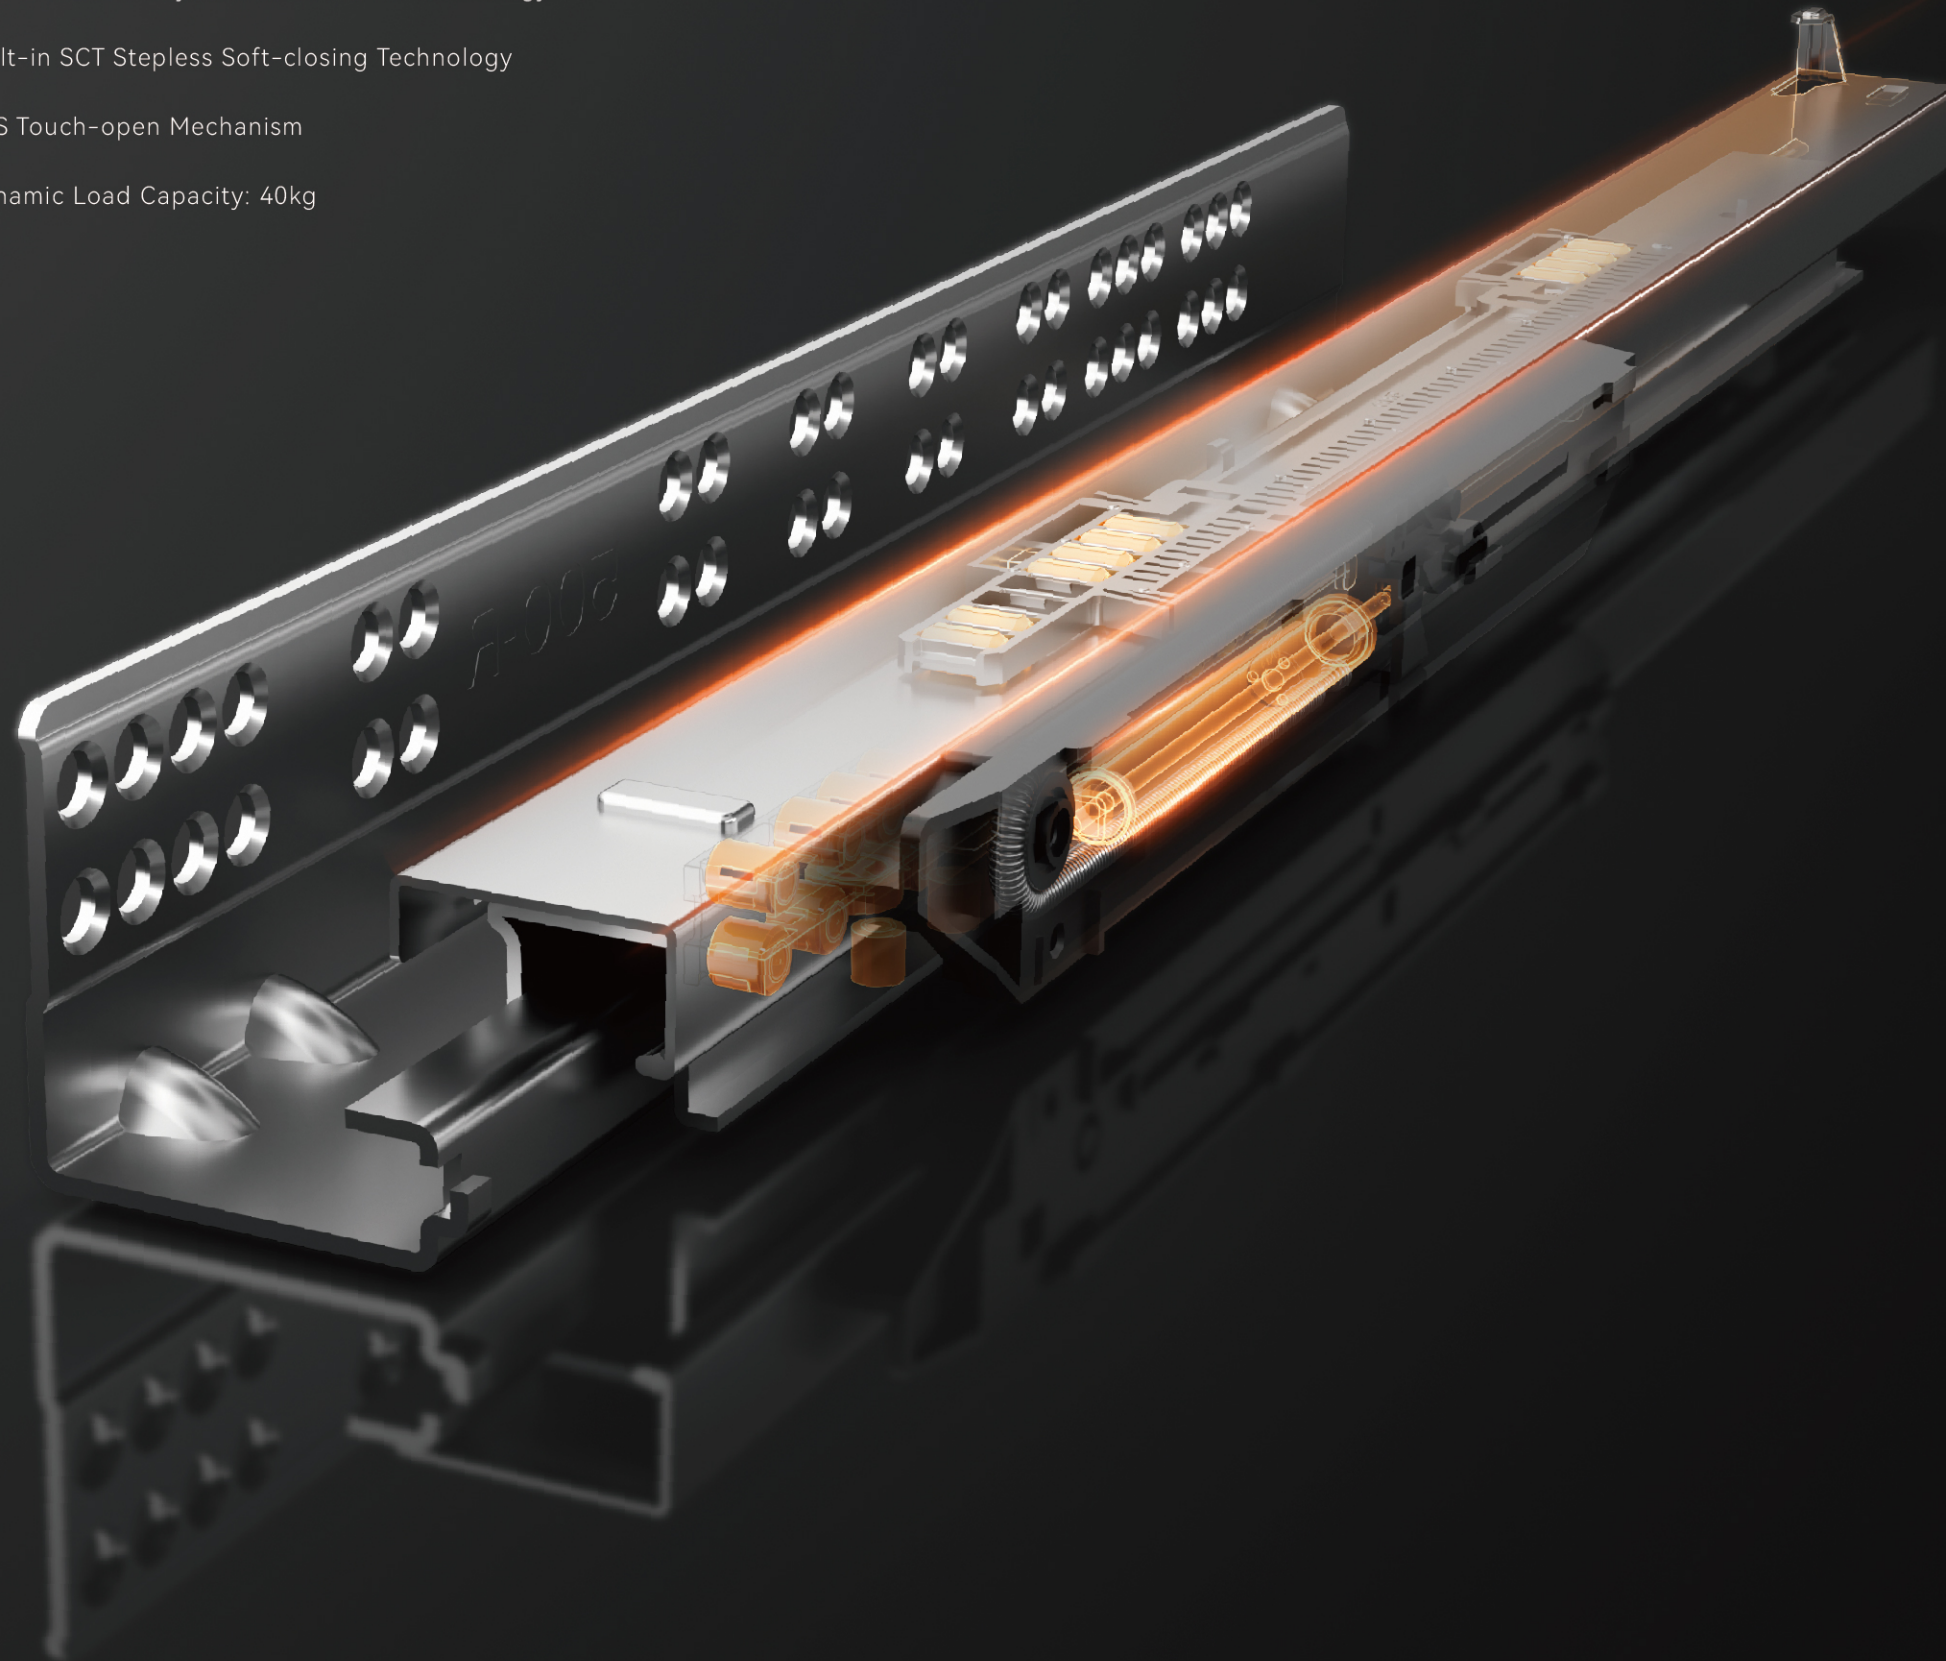

N9+ 9mm Ultra-Thin Minimalist Design, Side panels allow changeable colored glass, wood textures, or stone textures.

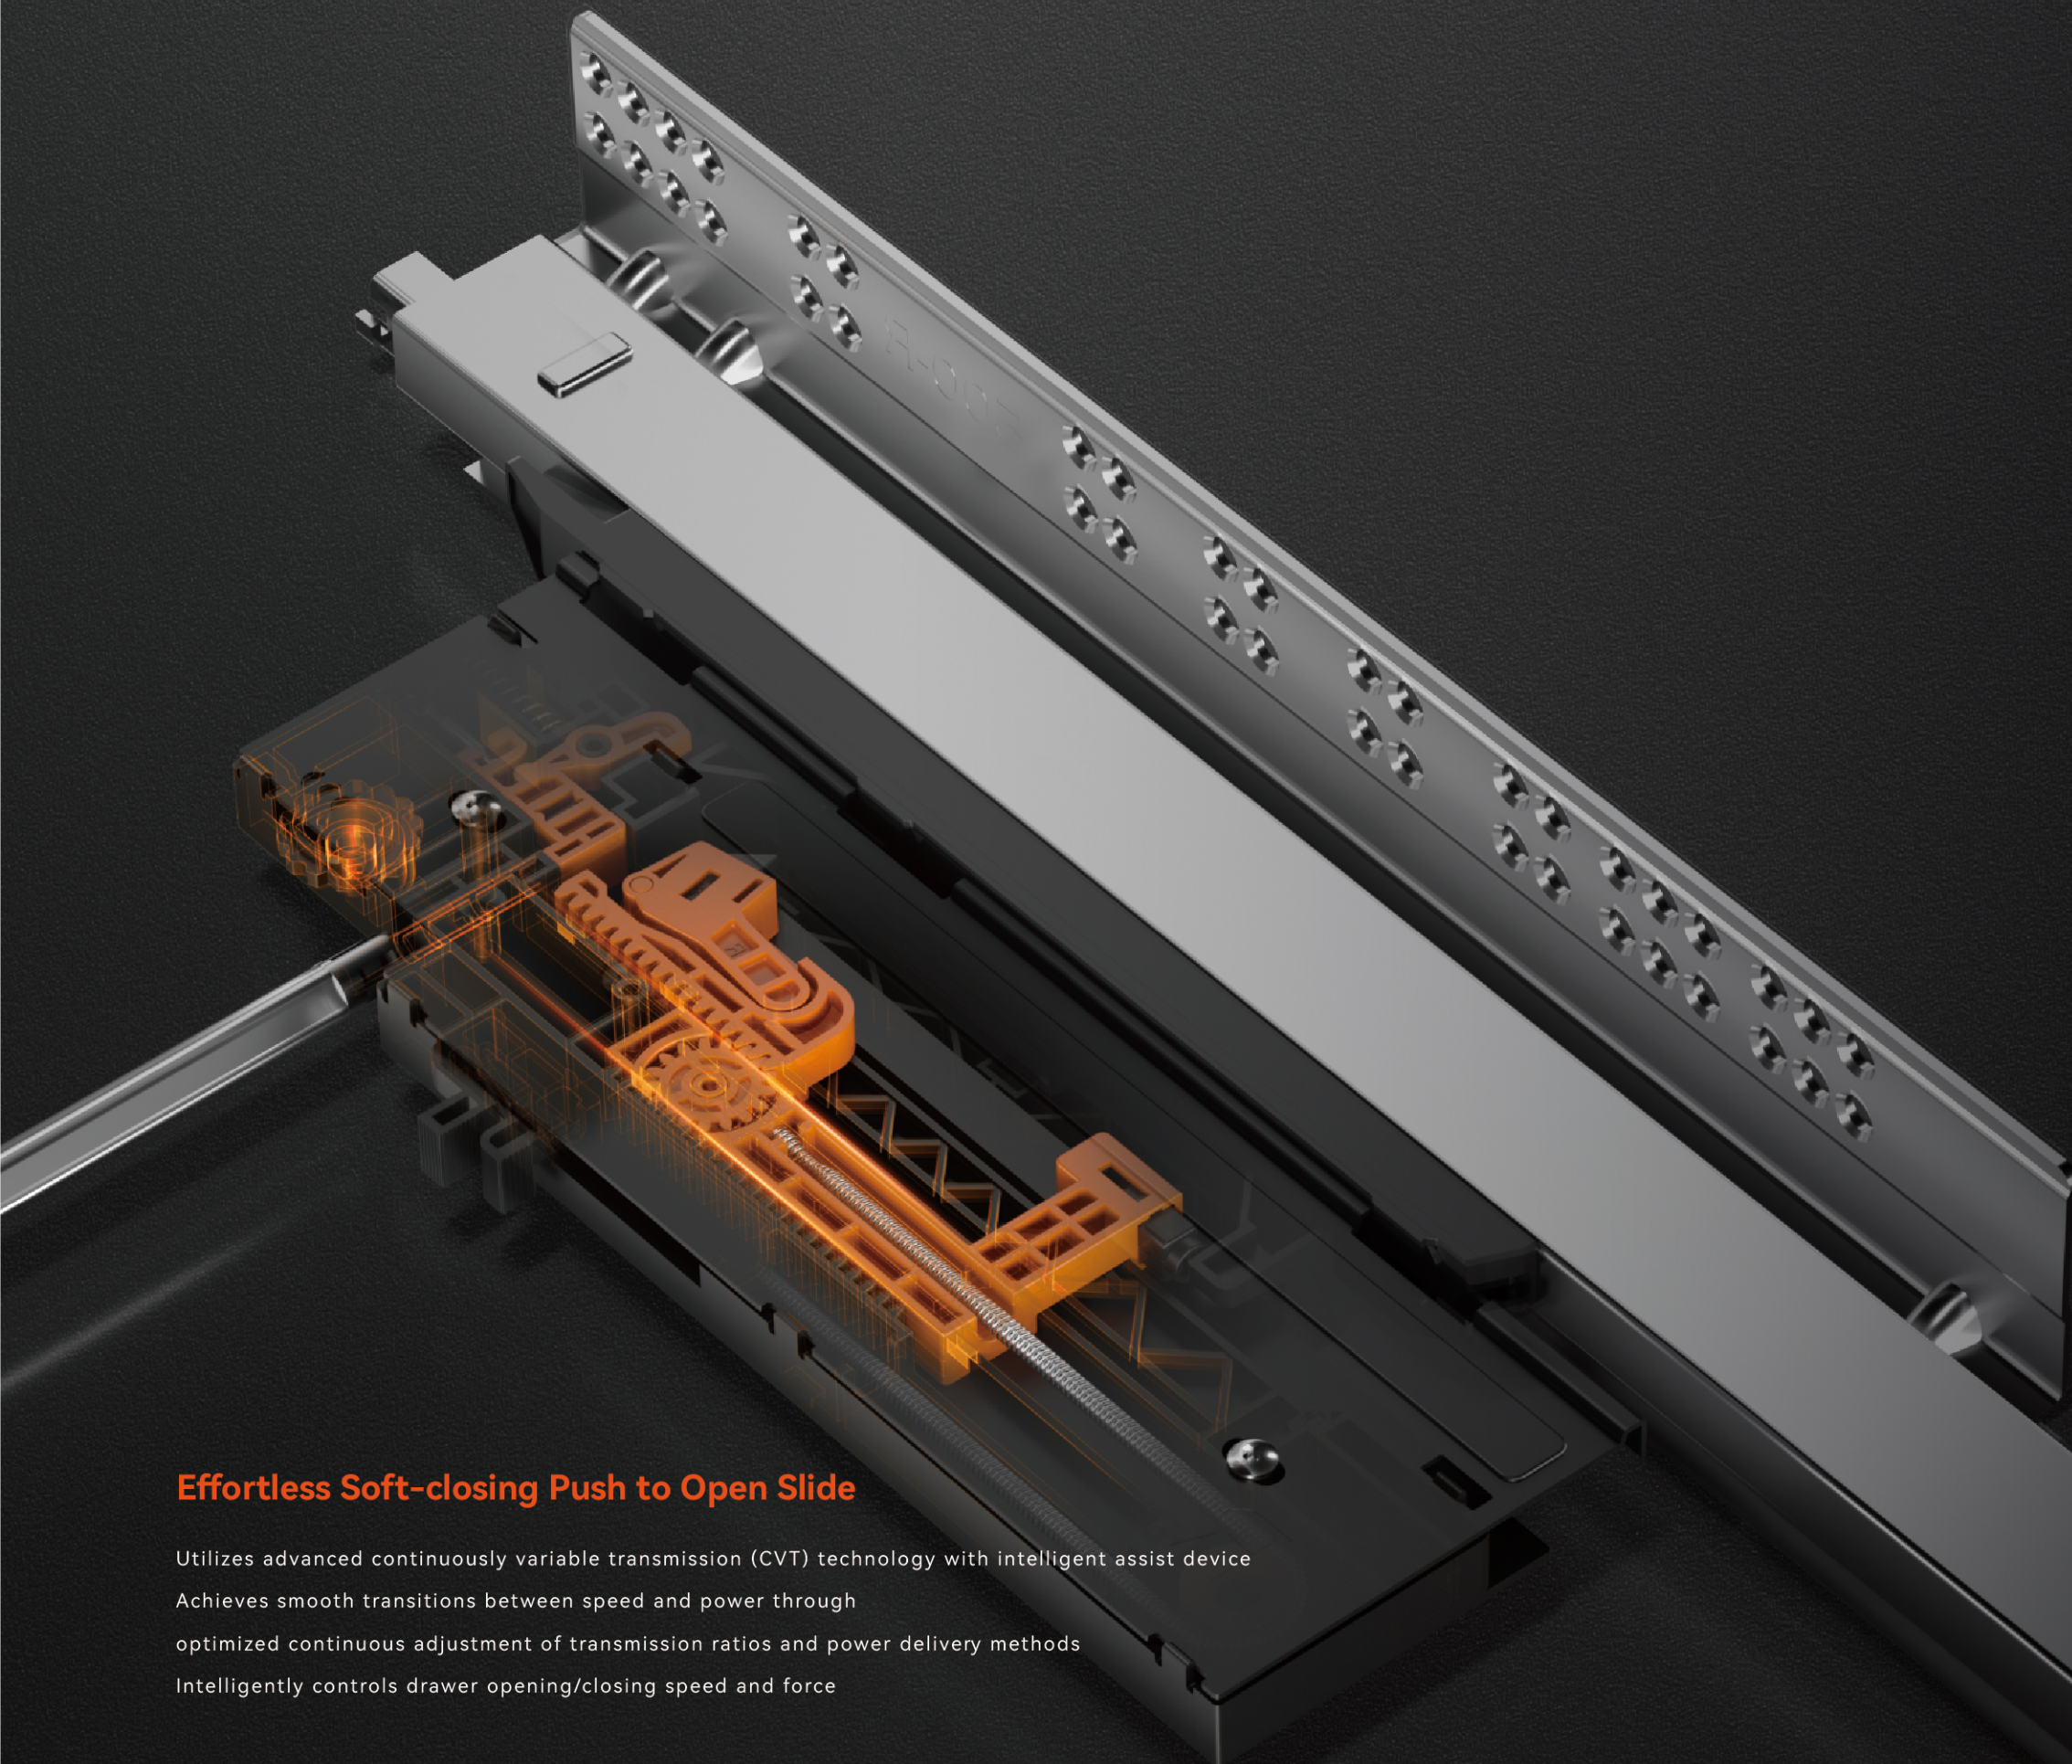

N13 13mm Thickness Design. Minimalist & Timeless Aesthetic

N13+ 13mm Thickness Design Changeable glass with multiple color and texture options.

New Slide Runner System

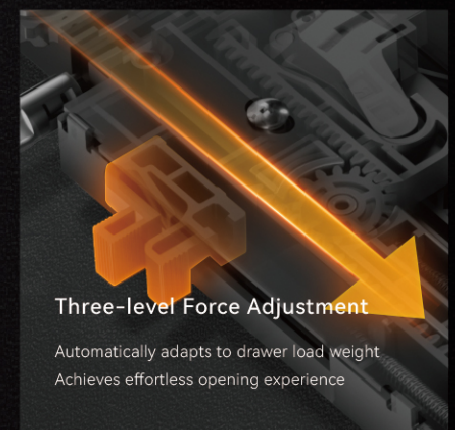

- Concealed Full-Extension Design
- Three Extension Synchronization Rail Technology
- Built-in SCT Stepless Soft-closing Technology
- TOS Touch-open Mechanism
- Dynamic Load Capacity: 40kg

Effortless Soft-closing Push to Open Slide

Utilizes advanced continuously variable transmission (CVT) technology with intelligent assist device
 Achieves smooth transitions between speed and power through
 optimized continuous adjustment of transmission ratios and power delivery methods
 Intelligently controls drawer opening/closing speed and force

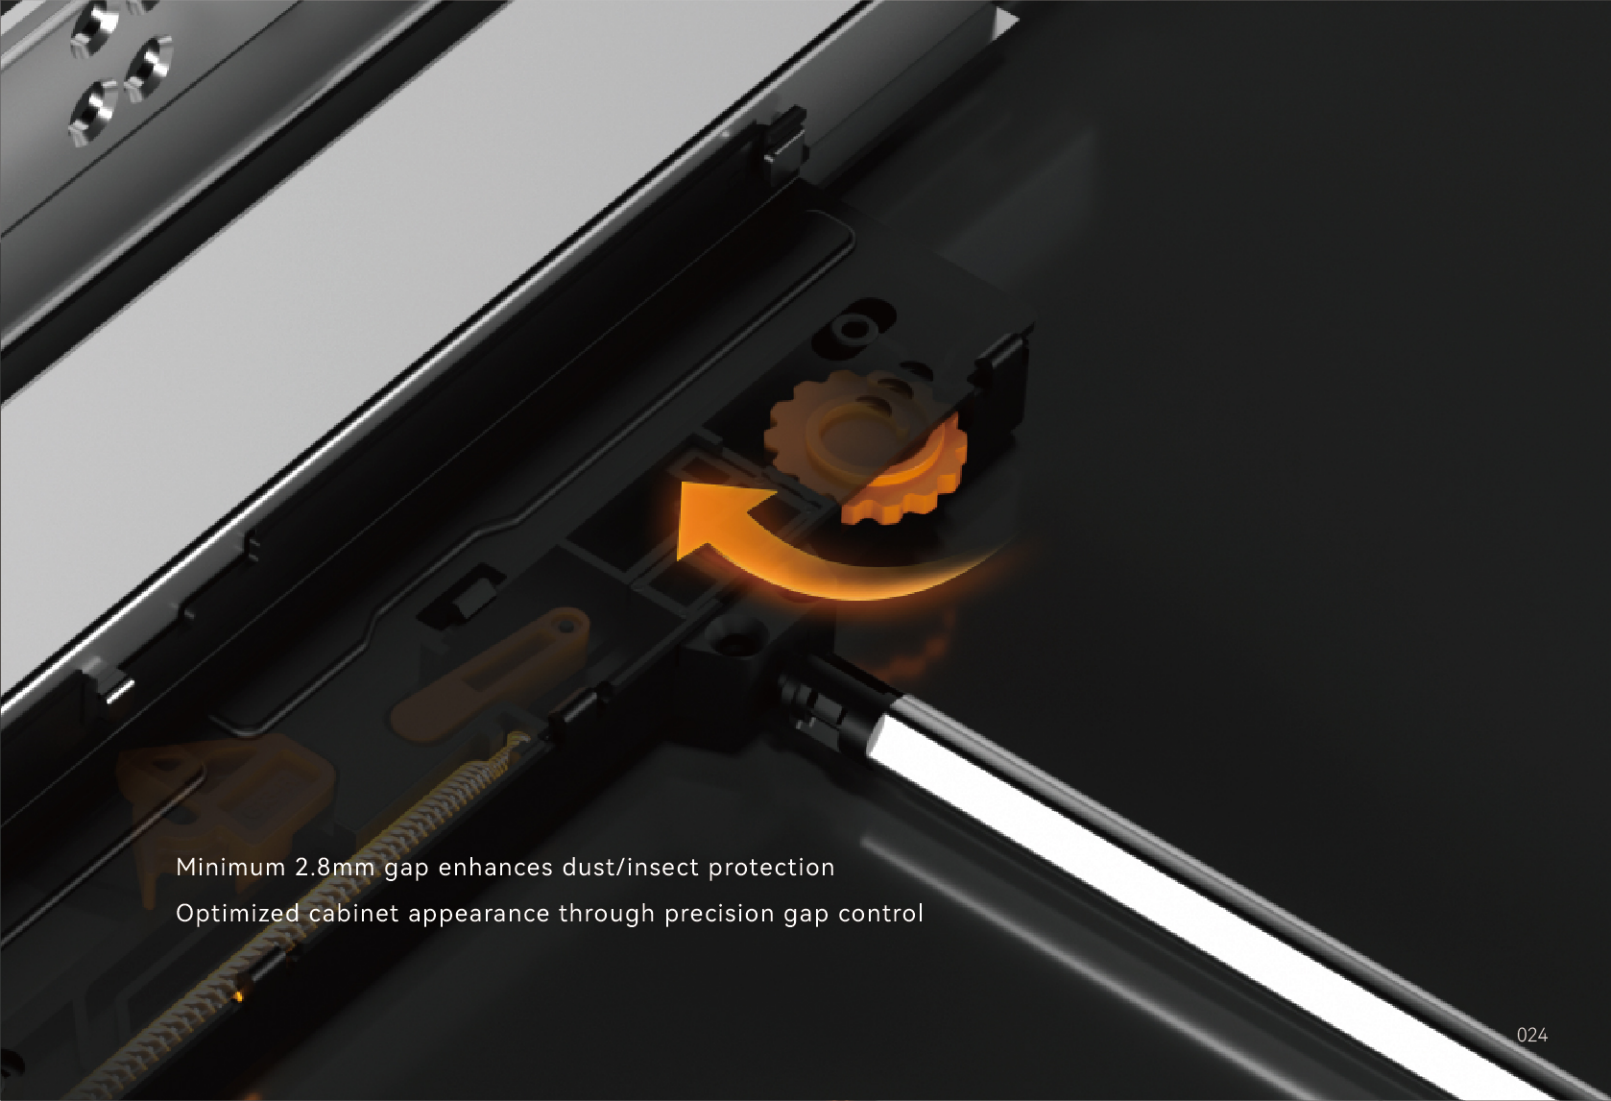

Light-touch Push to Open with smooth operation
Maintains silky motion even under full capacity

Synchronous Push to Open System

Features innovative press-sync ejection mechanism

Gentle press anywhere on panel activates built-in synchronous linkage for coordinated, smooth extension

Perfectly aligns with modern handle-free minimalist design concepts

Minimum 2.8mm gap enhances dust/insect protection
Optimized cabinet appearance through precision gap control

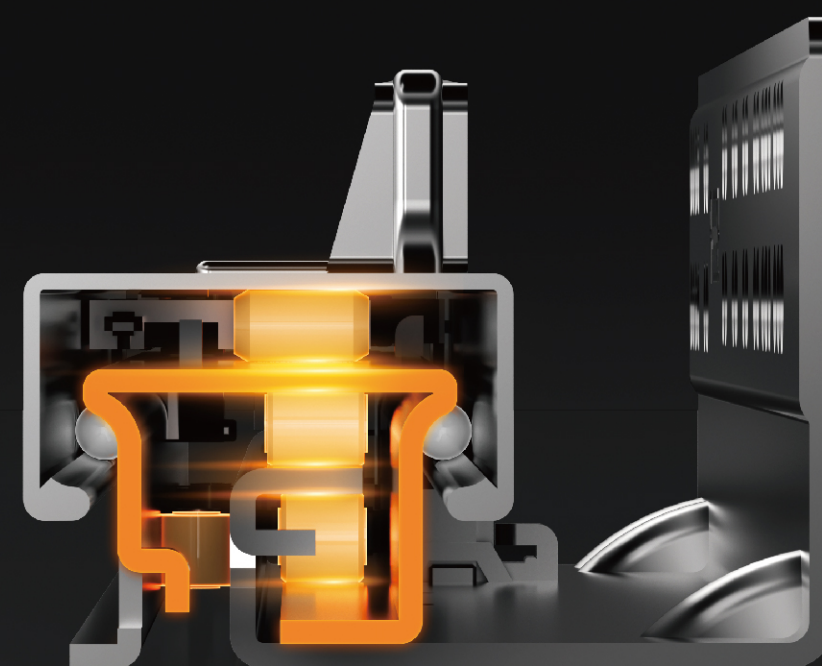

Reinforced POM Rollers

Optimized dense layout significantly enhances load capacity, ensuring effortless operation for heavy or bulky items.

Silent Drawer, Smooth Gliding

Drawers open and close seamlessly with fluid movement under full load.

Professional Anti-Shake Technology

Triple-rails alignment delivers stable, wobble-free sliding.

Max dynamic loadability: 40kg

9mm Ultra-Thin Design — As Thin as Your Smartphone

In home design where space-saving meets style, our ultra-slim side panels redefine storage aesthetics. At just 9mm thick, this minimalist solution blends effortless functionality with modern elegance.

Mix & Match Your Storage

Wood adds natural warmth with its unique grain, perfectly balancing cool metal frames. This mix adds depth and coziness to any room, fitting both classic and modern styles.

Glass gives a sleek and modern look. Teaming up with metal, it brings bright, clean vibes perfect for contemporary homes.

N9⁺

Design Your Signature Style

Choose your favorite materials — from sleek glass to warm wood grain — and pair them with our metal frames. Every combination becomes a reflection of your personal taste, crafted to perfection through expert design.

Kitchen

Living Room

N13+ embodies a minimalist design aesthetic,
exclusively tailor-made for those who pursue a high-end custom-crafted fashion
home lifestyle,
showcasing a distinctive taste and refined attitude toward life.

N13⁺

Here, there are no rigid rules for combinations—only boundless creativity and imagination. That's why we not only offer a diverse selection of standard textures, but also provide personalized one-on-one texture customization services. Whether you seek materials that harmonize with your interior design style or wish to incorporate unique textures reflecting your personal design philosophy, we bring your vision to life. Where imagination begins, our craftsmanship delivers.

In order to give the cabinet opening experience a richer level and unique charm, we not only strengthened its functionality, but also greatly improved its aesthetics. The external lighting system can provide soft and uniform lighting, making the items in the cabinet clearly visible. This lighting effect not only makes it easier for users to find and take items, but also creates a warm and comfortable atmosphere.

LED Lighting Installation

The innovative built-in lighting device, with its delicate and balanced light and shadow, covers the items in the cabinet with a clear and charming brilliance. This lighting idea not only greatly optimizes the efficiency of users' search and extraction of items, but also cleverly weaves a warm and elegant spatial atmosphere, making every light opening of the cabinet door a double feast for the eyes and the soul.

N-Vona

Series Concealed undermount Slide

Handle self-locking device Automatically stops the drawer after closing to prevent it from sliding out One-touch loading and unloading, quick installation and disassembly, easy separation

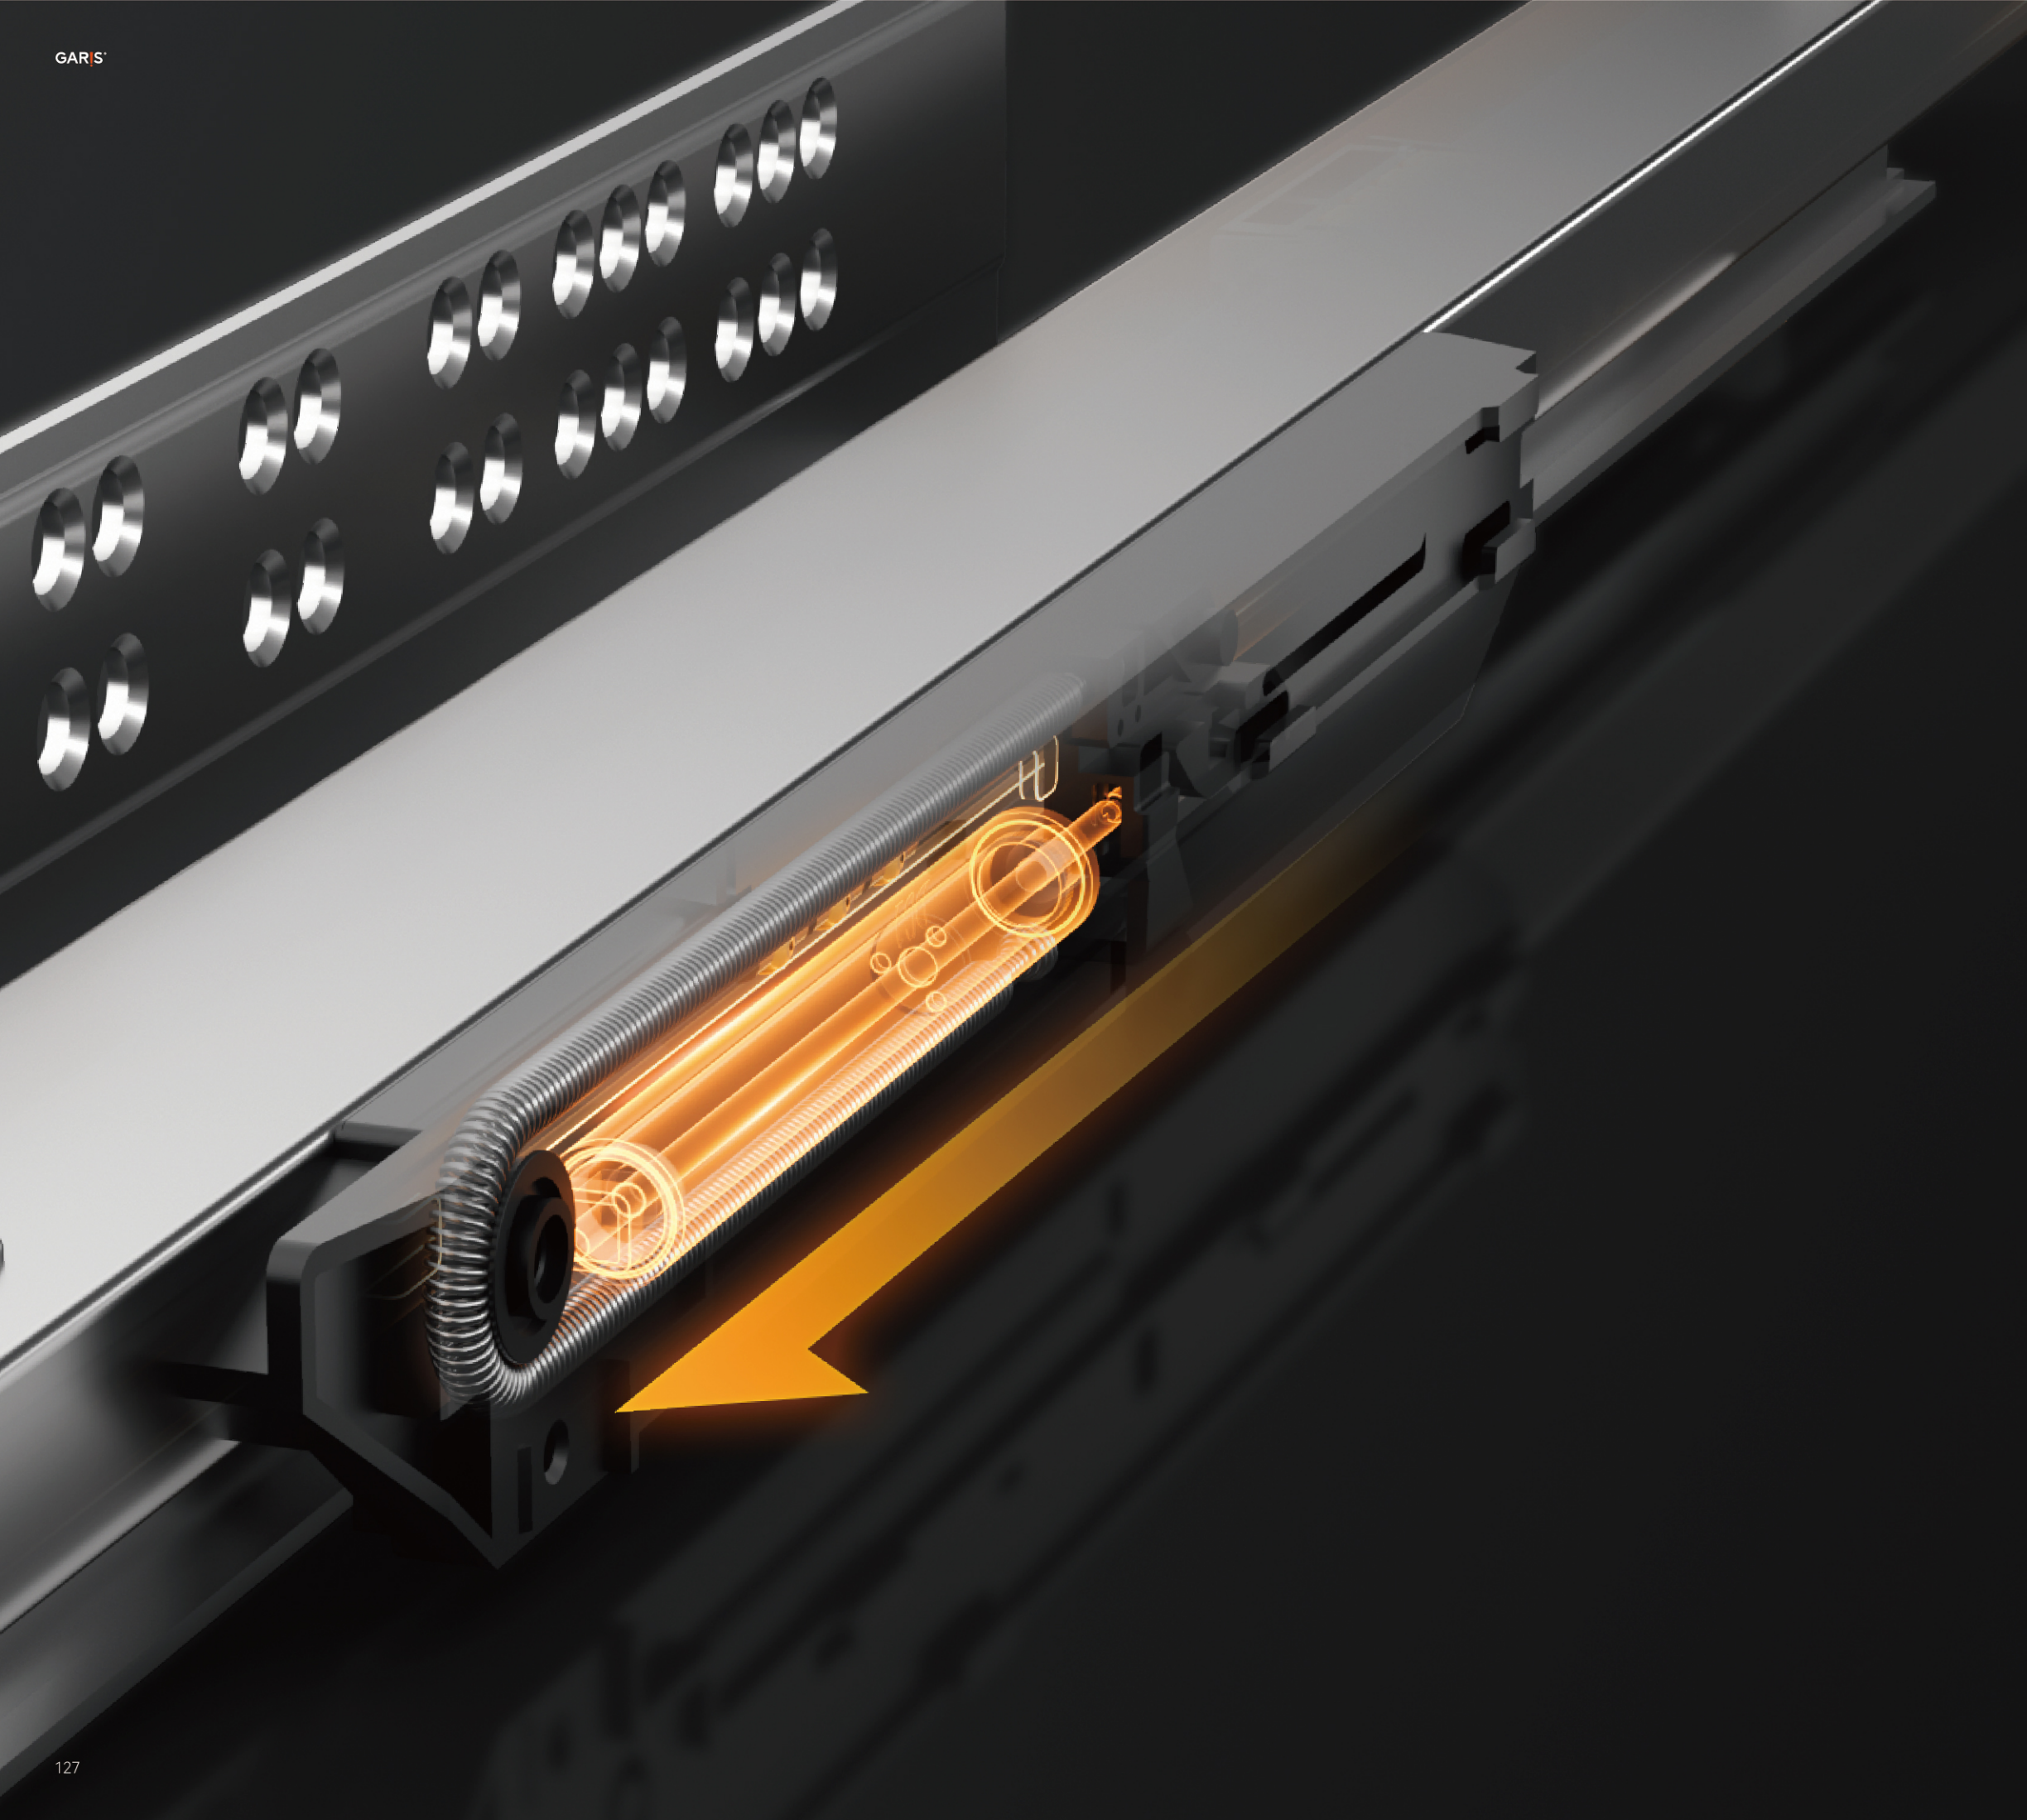

Maximum dynamic load capacity: 40kg

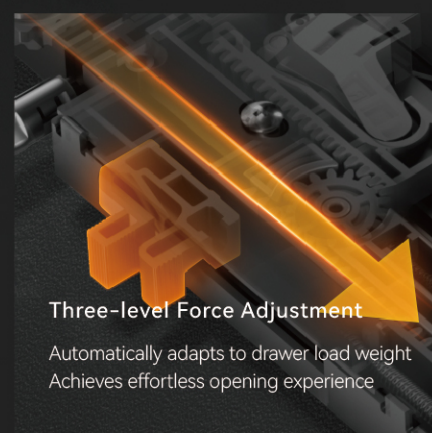

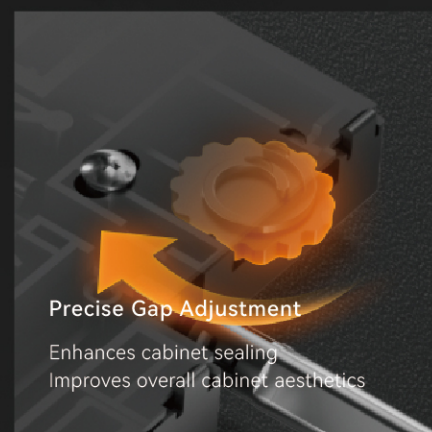

Long-lasting durability with no sagging or wobbling

Tool-Free Three-Dimensional Adjustment

Millimeter-level precision adjustment ensures cabinet panels remain perfectly aligned

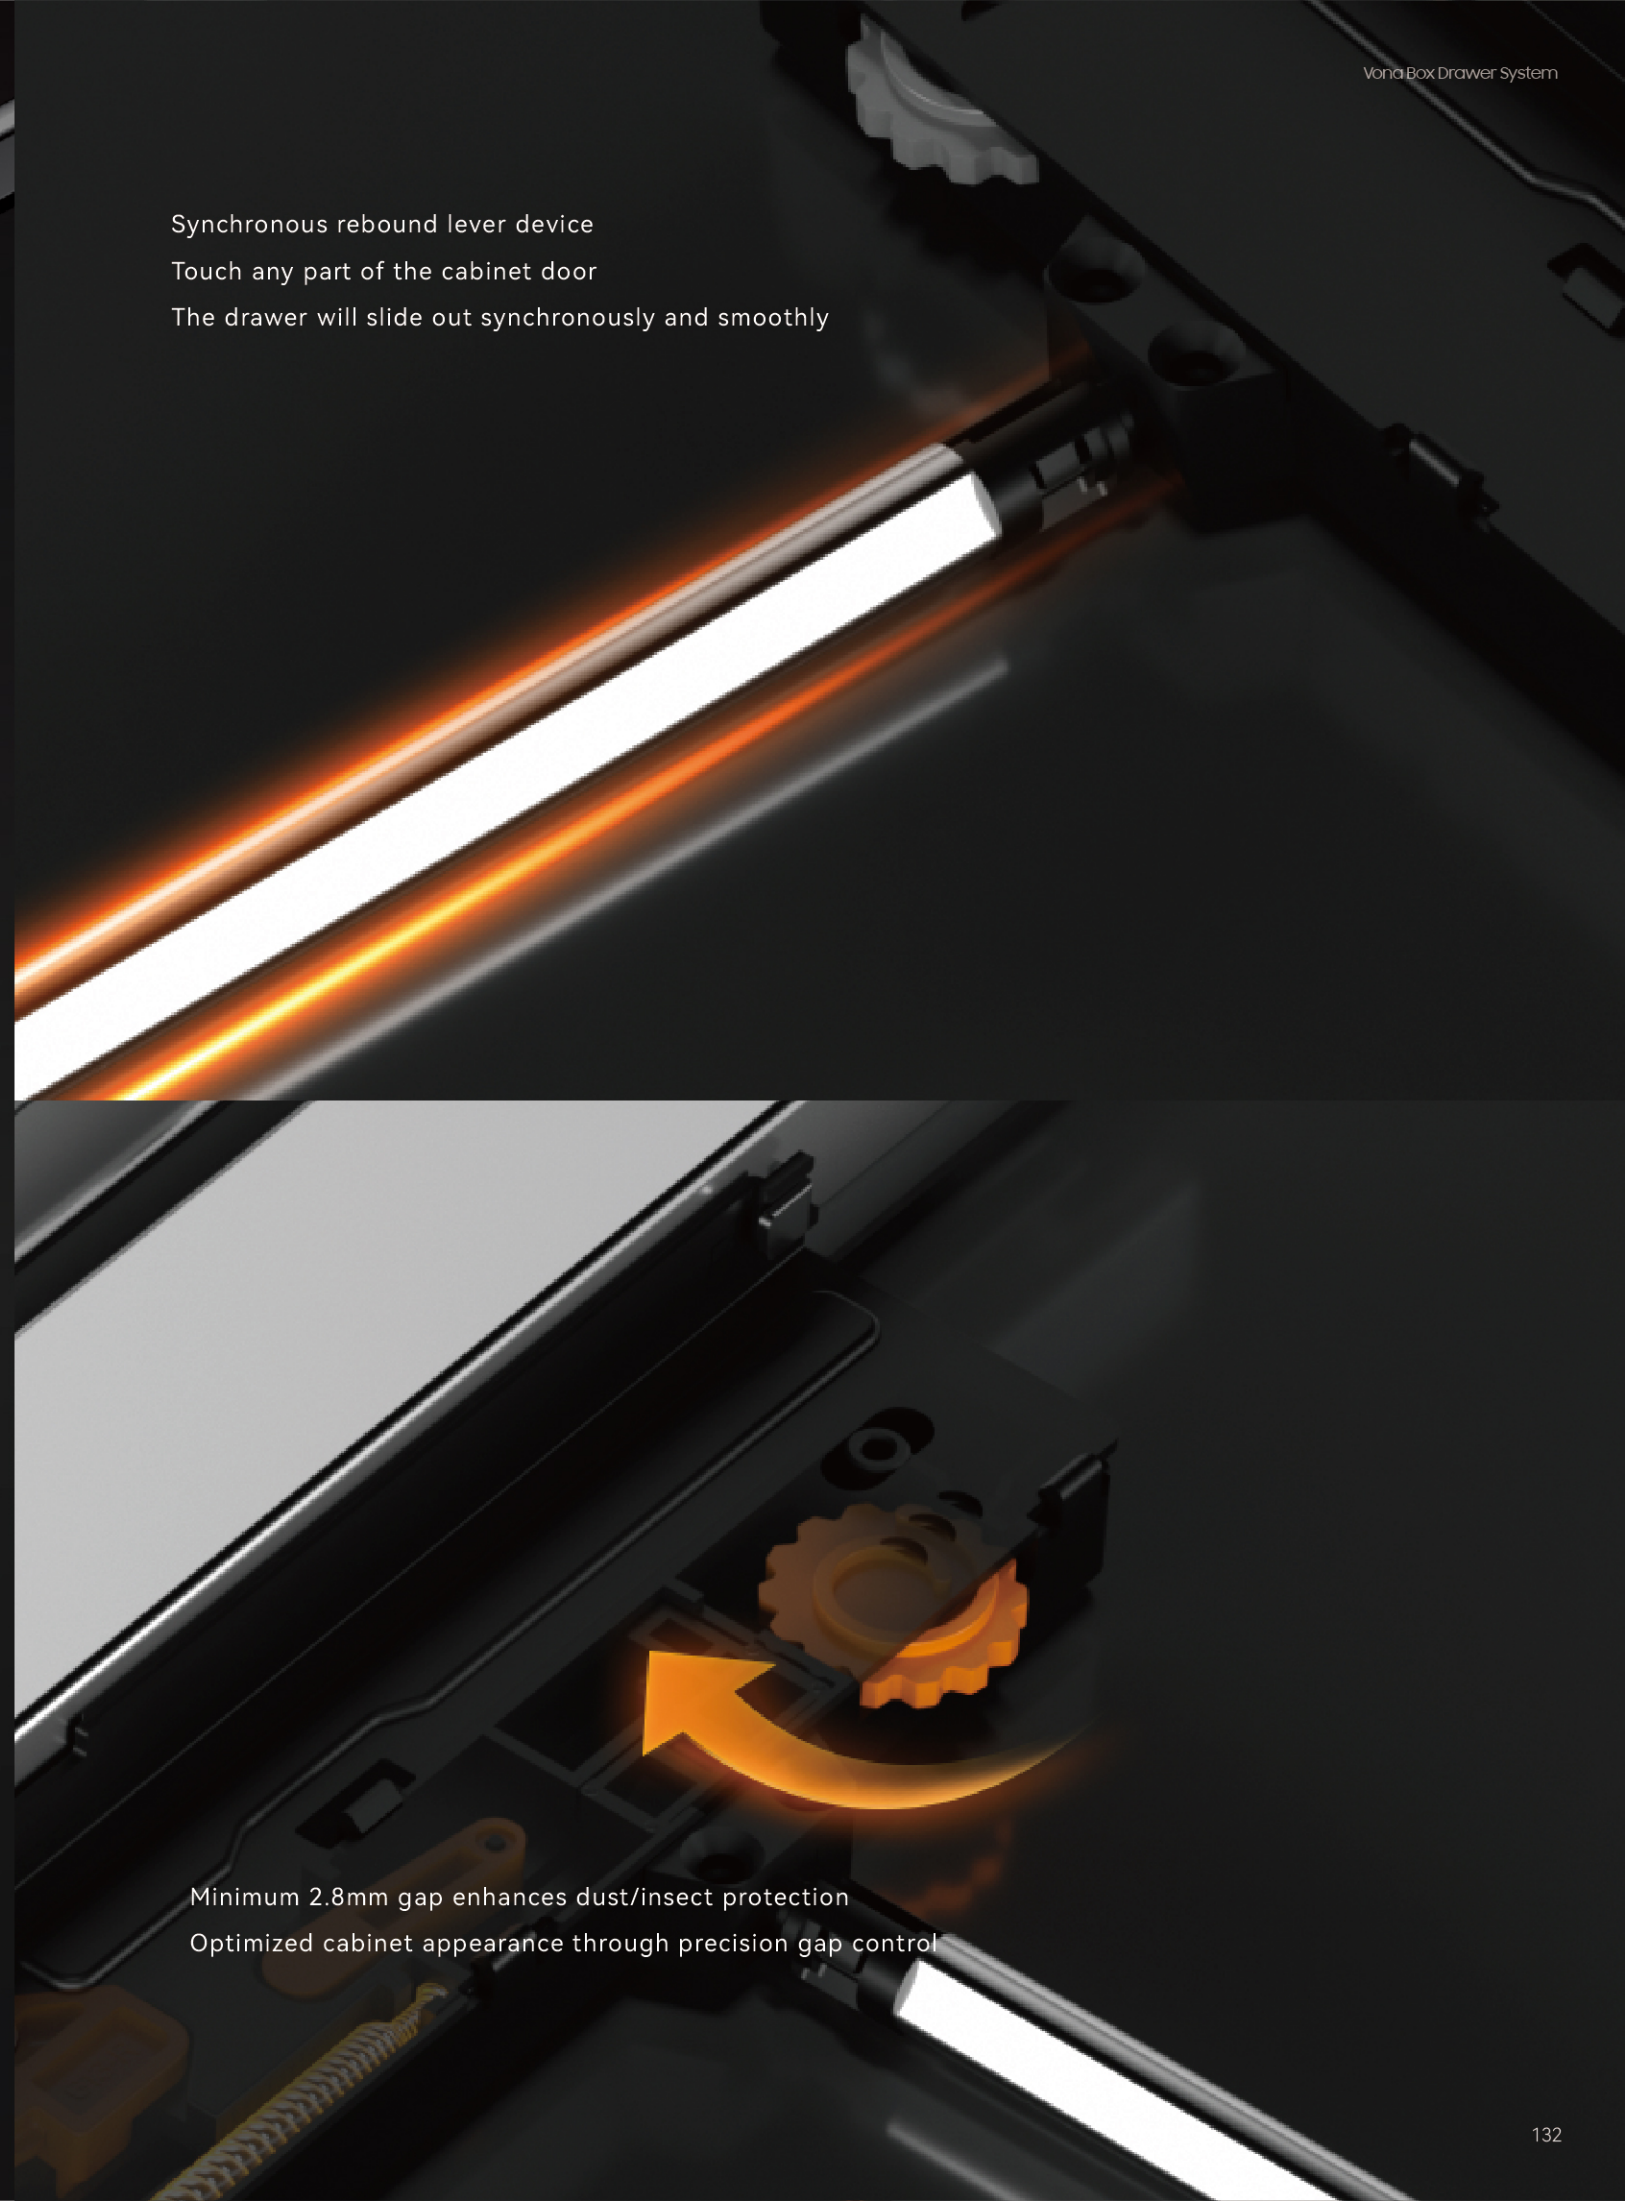

Quick drawer installation/removal without tools

The user only needs to press lightly anywhere on the panel to trigger the rebound device. The synchronization rod will respond quickly and drive the cabinet to pop out smoothly and harmoniously.

Synchronous rebound lever device
Touch any part of the cabinet door
The drawer will slide out synchronously and smoothly

Minimum 2.8mm gap enhances dust/insect protection
Optimized cabinet appearance through precision gap control
